INCIDENT RESPONSE AND FAST FORENSIC SERVICES

Detect, contain, eradicate, and remediate from security incidents F / A / S / T
Fast / Accurate / Simple / Thorough

CYCRAFT INCIDENT RESPONSE

The CyCraft IR Services team has been at the frontlines of cybersecurity and cyber threat intelligence protecting government agencies, Global Fortune 500 firms, and critical infrastructure from the most sophisticated of cyberattacks.

Through leveraging our frontline experience with both active and emerging threats, as well as their techniques, tactics, procedures, and behavior profiles, we’ve successfully assisted multinational organizations in investigating critical security incidents, conducting thorough digital forensic analyses, and accelerating maturity in long-term security solutions.

In under 1 day after our scanner runs, you receive fully-actionable eradication and remediation reports, explained to you step-by-step by our CyCraft IR Services team. We rescan and confirm eradication with cyber threat intel from multiple major proprietary sources across the globe, as well as the rigorous AI-driven vetting process of CyberTotal.

OUR DELIVERABLES

Your clear, concise, and fully actionable reports cover everything you need to know to get back to business.

- Full storylines of any & all malicious activity
- True, system-wide root cause analysis
- Malicious domain, IP, URL analysis
- Malware analysis
- Graphs of all affect nodes and executions
- A step-by-step plan for eradication
- Eradication confirmation
- Up-to-date Global Cyber Threat Intelligence
- MITRE ATT&CK mapping & more

YOUR KEY THREATS COVERED

Financial
Threat groups target not just your business’s financials but also your customers’. This includes payment card data theft and ransomware.

Spear Phishing
Socially-engineered attacks effectively target your staff. While typically emails and texts, this now includes voice/audio deepfakes, with video deepfakes now on the horizon.

Ransomware
Attackers can copy, exfiltrate, and delete your sensitive data in seconds. Ransomware attacks are rapidly increasing in frequency, severity, and complexity.

Intellectual Property Theft
Sophisticated state-sponsored attacks are known to target trade secrets, proprietary product IP, and other sensitive information.

Supply Chain Attacks
Threat groups target less secure elements in your supply chain to infiltrate your environment and exfiltrate or destroy sensitive data.

Insider Threats
Insider threats can instantly bypass layers of security and are launched by people within your organization, former employees, contractors, partners, or business associates.
ABOUT CYCRAFT SERVICES

CyCraft Services provides organizations worldwide with the innovative AI-driven technology necessary to stop cyber threats in the 2020s. CyCraft technology is uniquely designed to detect the latest trends in malicious behavior, automate investigations, and auto- triage alerts, allowing CyCraft customers to detect, track, contain, and eradicate threats in near real-time.
